

I am writing to express my concern about the possibility of LPFM being given priority over FM translator service. I listen to K-LOVE and it is a vital part of my life, so much so that I am a regular on-going donor to help pay for the service it provides to me. I have been a donor for three years. K-Love serves many of my friends in the local community and it has been a positive, encouraging resource for us in a world where much of the media reports mostly gloom and doom. K-Love is a bright spot in our lives. K-Love also provides news that would not otherwise be spread through traditional media. This service is vital to the local public interest. Please help us continue this service to my community.
